

## DASIA 2019 Conference Details

**DASIA - DA**tA Systems In Aerospace conference organised by Eurospace, Paris - invites you to participate to its 24th edition. DASIA is each year executed at a new location, normally in Europe. This time it is in **Torremolinos (Málaga)** at the Spanish Costa del Sol, an area with nice beaches, including a conference hotel at the beach with exceptionally reasonable room prices<sup>1</sup>, offerings associated to modern tourism mixed with Spanish culture and monuments of old history. **DASIA 2019 will take place in the 3-day period 4th to the 6th of June – Tuesday to Thursday.**

The rationale and execution of the DASIA program will follow the traditional format with recent modifications.

DASIA is about data systems, and in this context the presentation of achievements, new ideas and proposed projects, related questions and answers, exchange of ideas, and business. It embraces technical and managerial aspects of development, operation and maintenance of data-handling related components and systems. It encompasses hardware and software for space and aircraft systems or systems for other sectors sharing similar complexity and requirements for high reliability. Cross-domain topics and participation have a high priority at DASIA, with other domains including e.g. transport, communications, navigation, energy, remote sensing, robotics, and automation.

Participation to DASIA may take several forms

- **Presentation of papers** of 30 min. duration incl. Q&A in sessions of each 3 related presentations. There are two parallel tracks. The sessions are composed according to the topics of selected papers from **an open Call for Presentation Abstracts with a deadline of 31st of January 2019.**

**Abstracts of min. 2 pages shall be forwarded to [dasia2019@eurospace.org](mailto:dasia2019@eurospace.org)**

Presenters will early March be informed about the selection result and the possible position of the presentation(s) in the program. The final program will be available at Eurospace.org shortly thereafter.

---

<sup>1</sup> *Keep in mind that the Costa del Sol tourist peak season starts in June*

The abstracts must contain name and contact info of author(s) and presenter(s) and any conditions related to the presentation of the paper(s). Final papers and the presentations may be available in the Eurospace web-archive after the conference. The archive will be open to all participants with a password that may be passed further at the discretion of any of the participants and Eurospace on request.

- **Keynote presentations**, including presentations at the conference opening Tuesday morning
- One or two **Open Panel session(s)** in the format first time executed in Oxford at DASIA 2018. Theme introduction and viewpoint presentations by panellists are here limited to few presentations of less than 10 min. duration thus allowing for discussions involving panel participants and audience.

**Suggestions for the Open Panel topics and keynotes are invited, preferably before 31st of January 2019 at [dasia2019@eurospace.org](mailto:dasia2019@eurospace.org)**

- Exhibiting products and services. Space is available for many exhibitor-stands next to the paper presentation rooms and the coffee break area. Exhibitors are announced in the program and on displays at the conference. **Please forward your request to [dasia2019@eurospace.org](mailto:dasia2019@eurospace.org)**

The heavy program of DASIA may prevent you from enjoying fully the local offerings. As a compensation DASIA offers a Wednesday evening program including entertainment and dinner.

The conference fee will be 940 € per participant and 2500 € for an exhibition stand including the fee of one participant.

Further information such as the final program, information on registration for the conference and booking for the conference hotel will be available in due time at **[eurospace.org/conferences-events/](http://eurospace.org/conferences-events/)**.
