

PRESS RELEASE

APRIL 7TH 2022

31 NEW INDUSTRIAL ENTITIES JOIN EUROSPACE

Eurospace is delighted to welcome 31 new members and to offer to the institutional actors an interlocutor even more representative of the European space supply chain.

This major increase in new memberships is a direct consequence of the open policy promoted by Eurospace to remain attractive to medium-sized and small companies with a European footprint, and to increase the Association's geographical coverage, in line with the characteristics of today's European space sector. New members joining Eurospace as of April 2022 are the following:

- + 3 in : *GMV Innovating Solutions S.R.L.; AntwerpSpace N.V; Telespazio Belgium SRL*
- + 4 in : *Air Liquide France Industry; ALTER Technology-TÜV Nord France; CGI France SAS; GMV Innovating Solutions SARL*
- + 2 in : *CS GmbH; GMV GmbH*
- + 3 in : *Elecnor Infrastrutture e Aerospaziale; eGEOS; ALTEC*
- + 1 in : *Thales Alenia Space Luxembourg*
- + 2 in : *MOLTEK, GMV Innovating Solutions B.V*
- + 2 in : *GMV Innovating Solutions Sp.z o.o.; Thales Alenia Space Poland*
- + 2 in : *Deimos Engenharia; GMVIS Skysoft S.A.*
- + 3 in : *CS Romania; Deimos Space Romania; GMV Innovating Solutions S.R.L.*
- + 2 in : *GMV Aerospace & Defense S.A.U.; GMV Soluciones Globales Internet S.A.U.*
- + 1 in : *Thales Alenia Space Switzerland*
- + 4 in : *ALTER Technology-TÜV Nord UK; Deimos Space UK; GMV NSL Limited; Thales Alenia Space UK*

Moreover, French start-ups *SpaceAble* and *Loft Orbital* have applied for Eurospace membership, and their candidacies were positively received by the Eurospace Council on April 4th. Pending formal presentation to the General Assembly in June 2022, we are happy to announce that they are not only the latest additions to Eurospace membership but also the first members representing the new emerging space industry.

It testifies from the confidence granted by its members to Eurospace leading advocacy competences in support of industrial competitiveness and innovation, whether they are new or established industrial players, small or large.

Eurospace members are the main European space systems manufacturers and launch services providers. They range from large satellite systems integrators to smaller equipment manufacturers, small systems manufacturers, service operators to launch systems architect and launcher elements manufacturers or engineering and software services. Launch service provider Arianespace is also a member.

The Eurospace membership now covers 16 European countries. Together, they represent more than 90% of the total European industrial turnover in space activities and about 70% of European space industry employment.
